

WIDE VISION GOGGLES

PRODUCT DESCRIPTION

- Wide vision goggles.
- Soft Flexible frame with direct ventilation holes.
- Clear poly carbonate lens
- Adjustable elastic head strap

TECHNICAL SPECIFICATIONS

- One size fits all.
- 58g assembled weight.
- Blue tinted PVC frame.
- High impact clear polycarbonate lens.
- 16mm elastic head strap.

INSTRUCTIONS FOR USE

Fit goggles over eyes and nose and pull elastic strap over the back of your head. Elastic strap can be adjusted by pulling the ends of the elastic through the sides of the goggles frame. To clean the goggles, use a warm soapy solution with a soft cloth.

WARNING

Goggles are intended for protection against low - medium impact particles. Typical applications would be grinding & cutting in the steel, wood and agricultural industries. Do not goggles for welding. Always use with approved auxiliary personal protective equipment. Consult the safety officer if unsure. Keep away from open flames. Immediately replace goggles that are damaged.
