INSTRUCTIONS FOR USE

Fit goggles over eyes and nose and pull elastic headband up and over the back of head. Adjust the strap by pulling the ends of the elastic through the sides of the goggle frame. To clean goggles, use a warm soapy solution with a soft fibre free cloth. Take care not to scratch the lens.

WARNING

The goggles are intended for protection against low-medium impact particles associated with light industrial processes such as grinding, cutting, drilling, wood working, gardening etc. Do not use goggles for welding. Always use with approved auxiliary personal protective equipment. Consult your safety officer if unsure of application. Keep away from open flames. Immediately replace goggles that are damaged/broken.
